

The Flagship Oil + Grease Pair

Synthetic, PTFE-fortified precision lubrication

ICHOREX OIL

For the parts you top up often

- Idler pivots & small bearings
- Exposed hinges & linkages
- Camera & gimbal mechanisms

Needle + brush tips. One drop is enough.

ICHOREX GREASE

For loaded, long-life contacts

- Bearings, lead screws, gears
- Loaded precision joints
- Plastic-safe: PLA, PETG, ABS

Clings and stays put. Wipe excess.

Do not use on

Belts · print beds
thermal interfaces · damping

Powering. Creation.

kreatos.co.uk/ichorex | Apply sparingly. Test compatibility before use.
